The Pedagogical Framework is a document that outlines what we do at Severnlea and why we do it. It is very important that the school community is involved in this process. Severnlea needs parents and students to be involved in the school to ensure consistency in lessons, behaviour and expectations. This document needs to be uploaded on the website by the end of the year. Your ideas and involvement will be most appreciated.

What expectations do you have of the school?

What areas do you want your child to improve in?

How can the staff assist in advancing these expectations?

How should parents be involved in the school?

What do students need to do at this school?

What values do you want the students of Severnlea to have?
